

Snapshots from our 50th Anniversary Celebration!

Thank you for joining us and making our 50th anniversary a night to remember! Your support and presence made it truly memorable. We couldn't be more grateful to our family, friends and clients who attended and helped mark this milestone. Here's to a wonderful holiday season and an even brighter year ahead.

Wrap It Up: Gift Wrapping Hacks!

This Christmas, ditch the ordinary and make your gifts unforgettable. From upcycled materials to personalized touches, these DIY hacks will add magic to every present.

1. **Brown Paper Glam:** Use brown kraft paper and decorate it with hand-drawn designs, stamps, or sprigs of evergreen for a rustic look.
2. **Upcycled Materials:** Repurpose magazine pages, newspapers, or old calendars for quirky, colorful wraps.
3. **DIY Gift Tags:** Use leftover wrapping scraps, paint chips, or cutouts from holiday cards to make unique tags.
4. **Coloring Paper Wrap:** Use plain white paper and let kids draw or color their designs before wrapping.
5. **Aluminum Foil:** Give your gift a shiny, metallic finish, great for a modern or futuristic vibe.
6. **Graph Paper:** Use graph paper for a nerdy, clean, and geometric style.

Essential Road Safety Tips for Christmas Travel!

"This holiday season, taking a little time to plan ahead can lead to a smoother experience, whether you're on the road or hosting gatherings!"

- **Know How to Handle Skids:** If you start to skid, remain calm. Steer in the direction you want the front of the car to go and avoid slamming on the brakes.
- **Avoid Cruise Control:** In slippery conditions, it's best to maintain full control of your vehicle, which can be compromised by cruise control.
- **Be Cautious with Heating:** If you need to defrost your windshield, start with the defroster and gradually increase the heat. Rapid temperature changes can crack the glass.
- **Educate Yourself on Local Conditions:** Research specific winter driving challenges in your area, such as common road closures or hazardous locations.
- **Be Prepared for Black Ice:** Although less common, black ice can form even in mild winter conditions. Look out for shiny patches

Look Ahead

December 24th - Christmas Eve
December 25th - Christmas Day
December 31st - New Year's Eve
